

LANGFORD WIND POWER

To whom this Concerns:

I would like to say what a wonderful job Classy Cleaning has done at our facilities at Langford Wind Power over the past year. The ladies come in once a week and clean the facility with a great attitude and they are in and out in a timely manner with all the cleaning done and minimal interruption to the daily work of the office. If I ask them to do something differently or more often they have always done so, very proficient group of ladies.

If you are looking for a company to clean your facility or house Classy Cleaning would do a great job. I would recommend them to handle your cleaning services. If you have any questions about the job these ladies do please give me a call at 325-896-2389.

Thanks,

Becky Riojas
